

In This Issue:

- The HEAT Is On
- 1 of 1 Shelby Supersnake
- 2019 Show Financials

Yep, the heat was definitely on. With an expected temp. of 107 for Jul 27th, the day of our 4th annual car show, most folks decided to stay home rather than venture out into the heat. And to be honest, who could really blame them.

For us, it was a disappointment to see only 13 vehicles show up, after months and months of planning, advertising, and doing everything we could to put on a terrific event.

That being said, we feel it was a success none-the-less, and those who did brave the heat had a good time.

Despite the heat, we had an unexpected guest show up, which happened to be the only Shelby Supersnake in Grabber Blue w/White Stripes in the U.S.! Yeah you heard that right, this car is 1 of 1, and boy was it beautiful.

Thanks for bringing her out Danny.

Low turnout, great numbers...

All those who showed really rocked it this year, bringing in after expenses a total of \$1216.00, which will be split between our church Youth group and River Bottoms Ministry.

Thank you so much for coming out and supporting us!!!
